bekishov@gmail.com

I, Aziz Bekishov, did witness the participants named above electronically sign this document.

## **Embassy legalization for Egypt in Washington DC area.**

If you are hoping to use your documents in a foreign country, you will need to have them verified by the embassy of your country. For example if you are in Egypt and you want to use your documents like degree, birth certificates, marriage certificates, and state documents in the United States, you will need to have them verified and legalized by the Egyptian Embassy and the United Department of State. It is a process that you can do on your own but if you want it done hassle free, you can always get help from the experts. The documents are verified for original signatures, original stamps and seals.

You need to note that Egypt is not a member of Hague convention so all the documents that are destined for Egypt will require the certification of the state or embassy legalization or the legalization of the consulate. The processing fee for personal documents is very affordable as you will be required just to pay a fee of 25 dollars per document but for the business documents you will be required to pay around 55 dollars. Please keep it in mind that it is very possible for the fees to change so it will be wise to contact in advance for the most up to date information about the fees.

The whole process of getting the documents certified and legalizing them can be a very complicated process and if you leave it to untrained personnel can lead to use of excess money and wastage of time.

As you are sending your documents please make sure to include the photocopy for the consulate and a fee of 55 dollars per document if it is for commercial legalization which is only payable in cash or check to the consulate of Egypt. There is no online payment option as for now.

Make sure to include a certified mail or express mail that is pre-addressed and pre stamped envelope to be used for the return of the document. The consulate cannot be held responsible if there is any loss of documents by mail. So it is very important that you make sure that everything is perfect before you send the documents to the consulate if you are going to do it yourself.

If you take the documents to the consulate personally, it will take a maximum of 3 business days for everything to be complete. If you are going to mail the documents to the consulate, it will take a maximum of 5 business days before everything is finalized. The documents that are verified can be categorized in the following categories.

### **Government documents.**

A government document is any document that is issued by state, federal or local government entity. In order to verify the documents, you will need to process them through the US Department of State and after that you will need to pass it through the embassy of your country for it to get verified. As an Egyptian who wants to get his or her documents verified, you will need to get the document to the US Department of State and then to the Egyptian embassy.

AT

## Personal documents.

The personal documents are documents like the marriage certificates, birth certificates, death certificates and divorce certificates among others. You will need to pass them through the secretary of state for them to be verified. We can also help you with this too and within a short time you are going to have your documents legalized. But if you want to do it on your own, the steps to follow is take the documents to the secretary of state and from there you will need to take the documents to the United States department of State and from there get them to the Egyptian Embassy for legalization.

## Federal documents.

The federal documents are documents such as FBI background checks and the process for legalizing such documents is quite easy as you will not be required to go to the secretary of state nor will you be required to visit your embassy for the same. You can simply submit the documents as they are to the United States department of State and from there the documents will get verified and legalized.

## Commercial or shipping documents.

The commercial documents are documents like packing lists, commercial invoice and halal documents among others. They are simply documents that are used for shipping activities. The legalization for such documents does not follow any certain procedure because there are different requirements in every state and as a matter of fact there are some countries that do not even require the verification of the documents.

## How can we be of service?

Well, if you are in need of Egypt legalization services you are in the right place. We are going to get your documents verified and legalized through the Egyptian embassy that is located in Washington. Our team is made of professionals who are experienced in this industry and you can be sure of high quality services.
